Mainly because of our hosting. This is being worked out and must be fixed within 24 hours. Sorry for the inconvenience! Follow @TheNBA2KW on Twitter for official updates! tables and writing builds in your notebook? Well, NBA2KW has the answer! We have developed a tool for the entire 2K community and we will keep it up to date as new information releases. This tool has the most detailed analysis of each build, including performance indicators, icon information, attribute caps, speed-enhancing information, contact dunks, and you can even save/share your build with anyone! Please comment below your thoughts on what we should change/add. We are working on collecting all secondary icons for all 189 archetypes as soon as 2K18 drops! After that, we will work on the reverse engineering of the algorithm that 2K uses to account for height/weight in attributes. Support us by following us on Twitter! please feel free to ask and we will answer them as soon as we can!
