Take In the Stoke RV-1A 6 axis Vertically The capacity of the articulated robot is 1 kg IN Stock RV-2AJ 5 axis vertically The capacity of the articulated robot is 2 kg Mitsubishi Robot RV-2AJ repaired Mitsubishi Five Axis Robot, Robot consists of robotic arm RV-2AJ, CR1-571 controller, drawer, manuals and cables. Mitsubishi Robot RV-2AJ (2 kg of lifting capacity) Fully user friendly and it can be programmed with Teach the pendant as well as with the PC. Offers Speed and high accuracy performance on more conventional industrial robots, boasting Top speed 2000 mm/sec, 418 mm reach and position Repeatability 0.02 mm Servo Motors equipped with absolute coders, which eliminates the need for origin when power is turned on. It also solves the problem interface peripherals while setting origin. Using a 64-bit RISC processor with Improved features performance and expandability. robotic languages, MELFA-BASIC IV and MoveMaster (MoveMaster Command), included in the standard Configuration.
